Full description

Discover the Maipú Wine Route on a completely self-guided bike tour.

The experience begins at Maipu Bikes, where we provide you with a mountain bike, a helmet, printed and digital maps, a description of the route, and local recommendations so you can plan your day at your own pace.

The recommended route is approximately 12–16 km and is mostly flat. Most of the route follows bike paths that run alongside Maipú's main street, where there is regular vehicle traffic. There are open irrigation ditches alongside the road, and some access points and sections near the wineries do not have bike lanes.

Therefore, it's important to pay attention to traffic, the irrigation ditches, and road conditions, and to always follow traffic rules. This route is not completely isolated from traffic.

Before you set out, we'll explain the map and the recommended route so you can enjoy the experience on your own. During the tour, mechanical assistance is available should you need it.

This is not a guided tour: there is no guide or group accompanying you along the route. It is a self-guided experience to discover Maipú by bike, visit wineries, enjoy the local cuisine, and explore the scenery at your own pace.
